

# Eko Core Digital Stethoscope

Eko CORE  
Digital  
Stethoscope

Eko CORE  
Digital  
Attachment

4 out of 5 clinicians  
hear heart sounds  
& murmurs with  
greater clarity using  
an Eko stethoscope.

*Survey of 120 clinicians  
comparing CORE  
to existing analog  
stethoscope*

## An Acoustic + Electronic Stethoscope. The Best of Both Worlds.

The Eko CORE delivers loud, clear heart and lung sounds with simple software support when you need it.

Acoustic / Digital  
stethoscope

40x sound  
amplification

Pairs with free  
Eko App

Wireless  
Bluetooth LE

9-hour  
battery life

HIPAA compliant  
software

# Eko Core Digital Stethoscope

## Software - iOS, Android & Windows

### View it

View heart sound waveforms and heart rate in real-time.

### Record it

Capture 15, 30, 60, or 120 second recordings for playback or storage.

### Save it

Save heart or lung sound recording and annotations in Eko's secure dashboard.

### Share it

Share recordings with colleagues for a second opinion or livestream cardiology-grade sounds with a telemedicine license.

### Analyze it (Coming Soon)

Analyze cardiac sounds for murmurs, AFib, and other signs of heart disease.

Eko CORE Digital Stethoscope

The Eko CORE Digital Attachment is compatible with most 3M Littmann, ADC, WelchAllyn Harvey, and Medline analog stethoscopes.

## Advancing cardiac care at over 1,000 institutions worldwide

### Telemedicine

Share stethoscope sounds with remote clinicians using Eko's real-time telemedicine livestream and store-and-forward software. CORE works alongside video conferencing apps, with telemedicine carts, and remote care kits.

### Education

Use Eko in the classroom as an intuitive solution for auscultation instruction. Eko is the only tool that empowers medical schools to build and maintain a cloud-based database of recorded and annotated heart sounds using mobile devices.

### Hearing Support

Use CORE's 40x amplification to hear even the faintest murmurs. Or playback pre-recorded sounds through your Bluetooth-enabled hearing aids.
